

No jamming of gate under any circumstances.

Quality Reliability Safety Security

TECHNICAL DETAILS

- Configuration** : Single phase induction motor couple with worm gear speed reducer with manual override release clutch
- Driving Out put** : Rack and pinion gear. Module 4
- Power Supply** : AC 240V 50Hz / 24V DC
- Current** : 5A Max
- Motor R.P.M.** : AC 1400 / 4200 DC
- Velocity** : 10m / min. & 15.5m / min. (24V DC)
- Workong Temp.** : -20C +100C
- Lubrication** : Grease and oil type
- Safety Device** : Electronic device for anti-crushing
- Max. Weight of gate** : 800kg
